

Adaptaspace designs & manufactures console workstations for ‘Mission Critical’ 24/7 applications, including process and system control, emergency management dispatching and call-taking, traffic management, security and surveillance, and technical support. Our GENESIS, PROCESS & ADVANTIS console systems are designed to have the flexibility to respond to project specific requirements at time of initial design, configuration, and installation; while providing the potential to adapt to future growth resulting from evolving operational and technological requirements. We also offers a full range of control room and dispatch center accessories including seating, lighting, monitor supports, operator climate controls, meeting tables & custom storage cabinets.
